FORTY-FOURTH DAY.

Wednesday, July 30. The House opened at 10 o'clock. REPORTS OF COMMITTEES.

Rep. Cummings, from the printing committee, reported the inajority and minority reports of committee on the market ready for distri-

Rep. Brown presented a majority report of the select committee on the claim of L. Ablo for the sum of \$8292.85, loss sustained as bondsman for the contractors to build a new reservoir at Lunkalia for the Honolulu Water Works. The committee state the case fully, find that to pay the claim would be a bad precedent, and recommend that the prayer of the petition be refused. The report is signed by Rep. Brown, Noble Isenberg, and Minister Spencer. Laid on the table to be considered with the minority report.

RESOLUTIONS. Rep. Rickard gave notice of a bill to amend the school laws.

Rep. Nawahi read a first time his bill to prohibit barbed wire fences. Noble Phillips read a first time his bill to encourage monthly steam communication between Tahiti and Honolulu. It gives a subsidy of \$1500 a round trip, on condition that steamers of not less than 750 tons, with a speed of not less than 10 knots be employed.

Rep. Brown read a first time his bill to repeal Sees. 142-145 Civil

Rep. White read a first time by title his bill to re-enact the law providing imprisonment for descrition of married persons.

Rep. Apiki read a first time his bill to amend the homestead law. Rep. Kauhi read a first time his bill to provide for a police justice for Ewa, Island of Oahu.

Rep. Kalua moved the rules be suspended and the bill read a second time by title, and this being carried he moved it pass to engrossment. Noble Baldwin moved it be re-

ferred to the judiciary committee. It might be a very good bill but members did not know anything about it. Referred to judiciary committee, Rep. Nawahi gave notice of a bill

to encourage steamer communication between San Diego and Hilo, Rep. Kalua presented a resolution that to-morrow, Thursday, July 31, being the anniversary of the restora-

tion of Hawaiian Independence, the day this year and hereafter be observed as a public holiday, and that when the House adjourns to-day it be till the day after to-morrow. Adopted. Rep. Lucas read a first time his

bill to regulate the importation and sale of opium.

ORDER OF THE DAY.

The House resolved into committee of the whole, Noble Phillips in the chair, for the consideration of the Appropriation Bill.

Board of Health, continued. Buildings, Repairs, and Maintenance of Hospitals, \$16,000. Minister Spencer gave details

composing the item. Rep. Nawahi moved \$24,000, so as to allow \$8000 for a hospital at Hilo, which required one as much as

Wailuku. Rep. Rickard moved the consideration of the item be deferred till the bill providing for hospitals throughout the group be considered. One of the hospitals contemplated in that bill was at Hilo. On further thought he would move instead that the item be referred to a select committee.

Minister Peterson was in favor of deferring the item, as the plea for a hospital at Hilo should be considered. He moved it be referred to the sanitary committee.

Rep. Nawahi was in favor of a select committee of members from the different islands. The bill referred to by the hon, member for Hamakua (Rickard) had no connection with this item, being a bill to provide for the establishment of leper hospitals. He had obtained an estimate that a hospital at Hilo similar to the one at Wailuku would

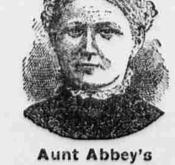

Rep. Brown supported reference to the sanitary committee. The motion for reference to sani-

tary committee carried. Noble Walbridge moved to insert an item of \$3000 for purchase of land for Malulani Hospital, Wailuku, and repairs and improvements to that institution. He spoke of the efficiency of the hospital and assured the House that the contemplated extension and improvements could be effected for the amount asked.

Rep. Brown considered this should go to committee with the previous item. The House would have to draw the line somewhere and not be led by its sympathies to neglect other necessary services for those of the Board of Health. Noble Baldwin praised the hospital

and spoke of its cramped condition. Sanitary considerations alone demanded the proposed extension. Rep. Kalua urged the claims of the hospital to liberal treatment. Rep. Brown said that unless the

item stated repairs, as well as purchase of the land, according to a decision of the Supreme Court whatever was left after the land was bought could not be speat for any other purpose. Noble Walbridge said his resolu-

Minister Peterson agreed with the motion. Some of the children were born on Molokai, and the idea of moving the Home to that place originated there. The argument used in starting the Home at Kakaako was that the parents could see their children. The Board would not make the change, however, without eareful deliberation and might

greater than here. Noble Baldwin thought the matter of too much importance to be left to the discretion of the President of the Board of Health. He felt the same as the previous speaker. The children ought not to be exposed to the dangers of contagion at Molokai. At the Kalibi receiving hospital it was to be supposed that the unconfirmed cases were kept separate from those unmistakably affected, and if the Home was there its inmates would not be allowed to come in contact with the lepers.

Noble McCarthy further advocated his amendment. Recess from 12 to 1:30.
